

Environmental Compliance Workshop

Innovative Environmental Solutions for Fleet Maintenance, Automotive Repair & Metal Finishers

Hear from Fresno and Clovis businesses on how they comply with complex environmental regulations by implementing simple solutions from basic housekeeping, and inventory control to water re-use. Find out how they are saving money and reducing wastes. At the workshop you will hear presentations on:

- **Proper Storage & Handling of Hazardous Materials**
- **Minimizing Chemical Inventory & Usage**
- **Proper Management & Disposal of Wastes**
- **Maintaining a Safe & Healthy Workplace**
- **Water Re-Use & Resource Conservation**

Local and State representatives will be available to answer compliance questions. Equipment vendors will also be available to showcase pollution control products and services.

Date: Wednesday, May 18, 2005

Time: 2:00-5:00 P.M.

Location: Fresno Convention Center's New Exhibit Hall,
Rms 2009-2012, M Street & Kern

Cost: No Cost. Registration Required

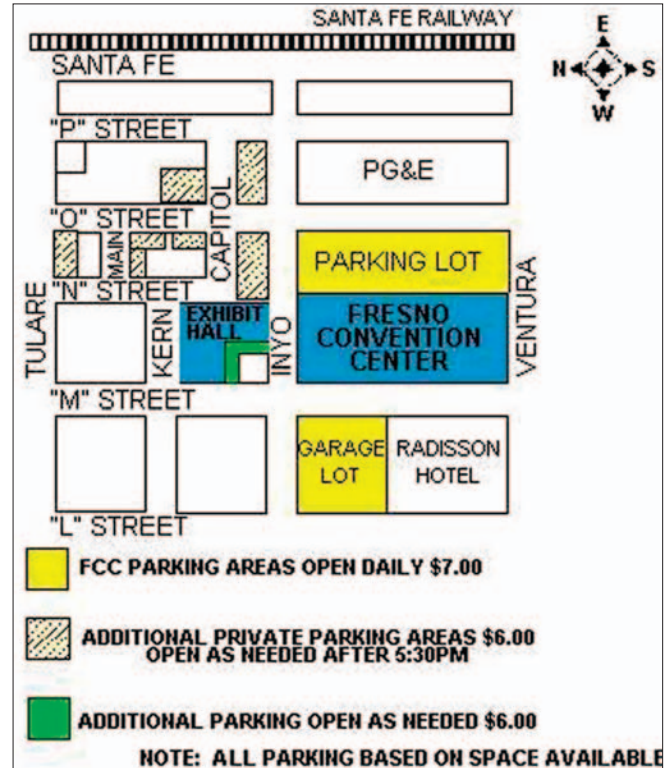

RSVP: Fresno Metropolitan Flood Control District
456-3292 by Friday, May 13

Valley Chrome discovered the value of capturing its storm water runoff and using it as a raw water source in its plating process. Ray Lucas, President of Valley Chrome (right), says, "By recycling our storm water and implementing other pollution prevention measures, Valley Chrome saves over \$50,000 annually."
